## Lake Accessibility – December 1, 2011

During times of lower lake levels, safe access to the reservoirs is limited and extreme caution should be used when accessing the reservoir. A list of generally accessible boat ramps is provided below to assist boaters and recreational users in accessing the reservoir. Boat ramps will be inspected and this report will be updated periodically. These conditions are based on current lake levels and can change daily. Public and commercial boat ramps with fair accessibility to the reservoir along with the current lake level are listed below:

**Toledo Bend Lake Level (12/01/2011):**                      **159.66 feet msl**

Record Lake Low of 159.42 feet msl was recorded on 11/22/2011

**\* Generally Accessible Public / Commercial Boat Ramps**  
(Listed North to South)

<b>Upper Toledo Bend</b>	<b>Lower Toledo Bend</b>
Swede Johnson Recreation Site 1	Pendleton Harbor Marina
Huxley Bay Marina	Alpine Marina
Haley's Ferry	Indian Mounds Main Ramp
East Hamilton	Indian Mounds Camping
Holly Park	Fin & Feather Lodge
	Paradise Point
	SRA Recreation Site 7

SRA encourages boaters and recreational users to use caution when accessing and navigating around the reservoirs at all times.

\* General accessibility to the boat ramps are estimated based on periodic physical inspections. Successful access will depend on reservoir conditions and the type of watercraft being launched.
